

# Options

## for EX Series Exit Devices

### Monitor

Mounted in the exit device backbar under the active pushbar, the dual switch assembly can be used to activate signal light, horn, monitor, or other devices. Switch assembly can be wired for normally open or normally closed. Monitoring Kit Assembly may be installed at the factory or in the field to existing EX Series exit devices. Dual switch assembly offers redundancy as required by some building codes or may be used to operate a second signaling device.
