Press Release

FOR IMMEDIATE RELEASE – September 12, 2016

Adams Rite Expands the RITE Touch Offering at ASIS 2016 with ADA Compliant Lever

ORLANDO, FL — At ASIS 2016, ASSA ABLOY Group brand Adams Rite will be showing the RITE Touch digital door lock with a new ADA compliant accessibility lever in the ASSA ABLOY booth #3601 at the Orlando Convention Center, September 12-15, 2016.

The Adams Rite RITE Touch digital door lock provides keyless access control for all-glass openings, offering refined styling, convenient and flexible access control for single or double glass doors.

“The RITE Touch is a beautiful access control solution for on-trend glass conference rooms and offices, and the new ADA compliant accessibility lever option guarantees that design professionals can ensure compliance without limiting their creative vision for the opening,” said Wendy Bowman, Marketing Communications Director, EMS & OEM Group, ASSA ABLOY.

Intended for indoor applications, the easy to install surface mounted RITE Touch requires no modification to the glass. With choice of thumbturn or ADA compliant accessibility lever, the RITE Touch provides elegant aesthetics with the latest touch screen technology to harmonize style and security.

ABOUT ADAMS RITE
